

Ripple Strength Timeline: Tecumseh’s Curse

This timeline explores the alignment between U.S. presidential elections and the Jupiter–Saturn conjunction cycles (often called the 20-year curse or Tecumseh’s Curse). It tracks presidents from George Washington (1789) through projected elections of 2080, describing cosmic context and manifestations of resonance events.

President	Elected Year	Cosmic Context	Manifestation Alignment
George Washington	1789	Pre-curse (before Harrison, no Jupiter–Saturn trigger)	No curse manifestation
John Adams	1796	No major Jupiter–Saturn trigger	No curse manifestation
Thomas Jefferson	1800	Early resonance forming	Stable
James Madison	1808	Resonance cycle building	Stable
James Monroe	1820	Near conjunction cycle	Stable
John Quincy Adams	1824	No major conjunction	Stable
Andrew Jackson	1828	Strong populist archetype	Survived assassination attempt
William Henry Harrison	1840	First clear conjunction curse	Died in office
Abraham Lincoln	1860	Peak resonance	Assassinated

John F. Kennedy	1960	Peak resonance echo	Assassinated
Ronald Reagan	1980	Resonance fading (element shift approaching)	Survived assassination attempt
George W. Bush	2000	Weak ripple, cycle near end	Survived major threats
Barack Obama	2008	Off-cycle, no conjunction year	Survived threats, no assassination
Donald Trump	2016	Pre-2020 reset	System crisis, not personal death
