

Enoch Zero Clock Manual — Jesus Timeline Verification

This manual provides a step-by-step guide for using the Enoch Zero Clock (reset 3114 BCE, 988-year cycles) to verify the birth and death of Jesus Christ. The method combines biblical references, astronomical alignments, and historical anchors. While the Bible does not state exact calendar dates, contextual clues align with real astronomical phenomena, which can be tracked using the clock.

Operator’s Manual

1. Initialize the Clock
 - Set zero point to 3114 BCE.
 - Engage the 988-year cycle gear.
 - Resets occur at: 2126 BCE, 1138 BCE, 150 BCE, 838 CE.
 - Jesus’ lifetime falls just after the 3rd reset (150 BCE).
2. Verify Birth
 - Rotate crank to years 7 BCE → 2 BCE.
 - Watch planetary markers.
 - Key alignment: Sept 11, 3 BCE (Sun in Virgo, Moon at her feet, Jupiter rising).
 - Matches Revelation 12 imagery and Herod’s reign.
3. Verify Death
 - Rotate gears to Passover (Nisan 14 full moon).
 - Narrow to Pilate’s rule (26–36 CE).
 - Eclipse marker shows April 3, 33 CE (lunar eclipse visible in Jerusalem).
 - Matches biblical description of darkness and blood moon.
4. Verification Triangle
 - Birth: Sun (Virgo), Moon (feet), Jupiter (king star).
 - Death: Sun (darkness), Moon (blood), Earth alignment (Passover full moon).
 - Events confirmed when triangle alignment appears on dial.

Bible Clues vs. Astronomical Dates

Event	Bible Reference	Clue Given	Astronomical / Clock Match	Final Date Anchor
Birth of Jesus	Matthew 2:1–2; Luke 2:8; Revelation 12:1–2	Born during Herod’s reign; Magi follow star; Virgo woman clothed with sun, moon at her feet	Jupiter-Saturn triple conjunction 7 BCE; Virgo imagery with Sun & Moon Sept 11, 3 BCE	Sept 11, 3 BCE

Death of Jesus	Matthew 26:2; Luke 22:1; John 18-19; Acts 2:20	Crucifixion at Passover; Darkness at noon; Moon to blood; under Pilate's rule	Passover full moon; lunar eclipse over Jerusalem; Pilate's rule 26- 36 CE	April 3, 33 CE
----------------	---	--	--	----------------

Conclusion

The Enoch Zero Clock confirms the timeline of Jesus Christ's life when recalibrated against cosmic alignments:

- Birth: Sept 11, 3 BCE (Virgo alignment, Herod's reign).
- Death: April 3, 33 CE (Passover full moon with lunar eclipse).

This cosmic verification triangle (Sun, Moon, Jupiter at birth; Sun, Moon, Earth at death) anchors the biblical narrative to astronomical precision, validating the prophetic timeline within the Enoch Zero 988-year cycle system.
